Forecast for Sunday 13 Nov 2022

Weather: A dry and bright day with some warm sunny spells, the best of these across Assynt and Ben Hope with more in the way of cloud across Knoydart and the mountains of Skye, and turning misty over the Caithness hills during the afternoon. Dry with some clear spells during the evening.

Chance of cloud-free hill tops above 800m: 80%, but 50% in the south and lowering 20% over the Caithness hills.

Low cloud and visibility: Small amounts of cloud over Assynt and Ben Hope, with patchy or broken cloud with bases 600-800 metres over southern ranges. Extensive cloud spreading to the Caithness hills during the afternoon, with bases 200-300 metres.

Met Office Aberdeen Meteorologist's View
Another very mild day, but feeling chilly across the summits in the gale force winds.

Forecast for Monday 14 Nov 2022

Weather: Some clear spells overnight, but clouds increasing to give some rain across Skye and Torridon by the end of the night. A bright start across eastern ranges, but outbreaks or rain, heavy at times, across Skye and Torridon will spread slowly northeast across most ranges during the day, whilst slowly dying out. Clearer conditions will spread across southwestern ranges during the evening.

Maximum wind: Southeasterly 30 gust 40 mph, easing later.

Chance of cloud-free hill tops above 800m: 60% reducing 20% in the outbreaks of rain

Low cloud and visibility: Patchy or broken cloud with bases 600-800 metres, becoming more extensive in the rain with bases lowering 400-600 metres. Visibilities moderate or poor at times in rain. Clouds breaking to small amounts across the southwest during the evening.

Temperature: **Glens:** Plus 8 rising to plus 14 Celsius.
At 800m: Plus 8 lowering to plus 4 Celsius later.
Freezing level: Above the summits
